ASCEND holds "Fun Friday" at the Edna W. Runner Tutorial Center

The Florida Atlantic University Brain Institute's ASCEND (Advancing STEM-Community Engagement through Neuroscience Discovery) program recently held a "Fun Friday" at the Edna W. Runner Tutorial Center in Jupiter. Led by professional neuroscientists and their trainees, ASCEND is a fun and educational way for kids to learn about the brain. Nicole Baganz, Ph D., research assistant professor of biomedical science and director of community engagement and programming of the FAU Brain Institute facilitated the program.

This “Fun Friday” was made possible through a generous donation made by Alice Hudson.
